SUMMARY

Goal succeeded. Account registration on <https://try.discourse.org/> was successful. After submitting valid details, the site displayed a welcome message confirming that an activation email was sent to `testuserdiscourse2026@example.com`. This is standard behavior indicating that the account has been created and only requires email verification to complete activation. No errors or issues were encountered during registration.

Summary of steps: - Navigated to <https://try.discourse.org/> - Clicked 'Sign Up' and filled out all required fields with valid information - Submitted the form successfully - Received confirmation that an activation email was sent (pending user action) The goal of registering an account was achieved up to the point allowed by public access (pending external email verification).
